## FUN ABOUT TO BEGIN.

Steel Magnates Threaten to Start Mills With Nonunion Labor.

STRIKERS WILL TRY TO STOP THEM.

Watchmen Armed With Clubs Patrolling the Mills—Powerful Aid Tendered the Amalgamated by National Organizations.

Pittsburg, July 17.—The threat of District Manager Persifer F. Smith, of the American Sheet Steel company, to start the Wellsville rolling mill and operate it as it has been in the past by nonunion men, was the only new feature in the strike situation and the eyes of all interested were turned to that plant.

A dispatch from Wellsville says the strike situation there remains as it has been ever since the men were called out of the mill. P. F. Smith, manager of the American Sheet Steel company of the Pittsburg district, was there Tuesday and to the mill men declared the mill would be run as a nonunion mill. He gave orders for the mill to start Wednesday morning. In response to Smith's order about 30 men went out to work. Two of them were members of the Amalgamated association. The manager of the mill concluded that 30 men was not sufficient to man the crews and the attempt for the present has been abandoned. It is said the nonunion men from other plants will be brought here, in which case serious trouble is feared.

Now that Mr. Smith has declared himself, it is thought the managers of the other nonunion plants will make an effort to resume also within a few days and developments of an exciting nature can be expected. It is known that a gang of men are at work at the Deweese Wood plant of the American Sheet Steel company at McKeesport, clearing up and making repairs, and well defined rumor was prevalent that an effort was to be made by the mill officers in the Painter plant to break the strike by bringing workers here from out the city. In confirmation of this, for the first time since the strike began, watchmen arrived with clubs, patrolling all sides of the mill. None of the strikers were to be seen about the property and everything was quiet. The mill officers declined to discuss the matter and said when they were ready to move they would do so without any noise. The Wood plant is closely guarded also, and the strikers look for the manufacturers to attempt resumption next week.

In direct opposition to Manager Smith's declaration and the evident preparations at the Painter and Woods works, an official of another of the companies interested, who did not want his name used, asserted that the companies had no intention of starting their plants. The same official said something might be known in 90 days, but he would not say whether that is the time the officials expected the strike to last. What the manufacturers generally think of the strike cannot be learned. All information at the offices of the companies or mills is denied. The explanation given is that there is nothing to give out or that the order has gone forth forbidding any one to talk.

### Cost of the Strike.

President Shaffer is still hopeful of an early settlement of the strike. The information he received from the strike centers was quite meagre. This he interpreted to mean that the strike was getting on well.

The steel strike is daily costing the three companies involved \$210,000 and the workmen \$156,000. It is estimated that in the daily loss of nearly 23,000 boxes of tin plate a day, the American Tin Plate company is daily losing over \$90,000, while the loss to the canning companies unable to secure their material is enormous in addition. About 700 tons of the 1,000 tons daily production of the American Sheet Steel company is being lost, and this represents a loss each day to the combine of at least \$50,000. The loss to the gas stove manufacturers is also great, as the mills are closed, which make a specialty of stove iron. This is the heavy season for making stoves. In addition to all of these losses, the many and varied industries crippled now and in prospect represent losses to the men of large sums that cannot be computed now. The Amalgamated men are said to have a fund of \$200,000 with which to keep the strike going.

### Strike Benefit Funds.

Youngstown, O., July 17.—The Amalgamated workers in the Youngstown mills of the Republic Iron and Steel company have met and decided upon a policy for collecting strike benefit funds from their members. They have notified President Shaffer that if the plan is acceptable to him, they will each donate one day's pay every

two weeks to the strikers' fund. About 800 members agreed to this, which will net about \$3,000 per month. The workers are also rapidly securing jobs in their mills for the striking steel hoop men.

### Settlement Expected.

Chicago, July 17.—William Phillips, business agent of the Iron Molders' union, 900 members of which are on a strike here, said that the men were holding conferences with their employers and that they would be back at work in a few days.

### VESSELS IN COLLISION.

Three Hundred Passengers Have a Close Call as a Result.

New London, Conn., July 17.—With 40 feet of her bow cut clean off in a collision with the steam yacht Wild Duck, the steamer Tremont, of the Joy line, which left Boston for New York with 300 passengers, was towed into New London and beached. All her passengers had been transferred to other steamers in the sound and continued their trip to New York. Captain Wilcox of the Tremont, says the steamer was proceeding on her usual course, when about 12 miles west of Cornfield Light, a schooner-rigged steam yacht was made out ahead of the bow. When too late the Tremont attempted to change her course to avoid the impending collision. The sharp prow of the yacht struck her about 30 feet back of the port bow, and sheered diagonally across, coming out on the starboard side. The force of the impact was sufficient to throw the passengers from their bunks and caused the greatest excitement among them for a time, but the officers of the Tremont maintained discipline and aid was quickly at hand. The steamer City of Worcester and the City of Lowell were both near and promptly went to the assistance of the Tremont. Immediately after the accident the yacht backed away from the Tremont and left immediately, coming later into New London harbor.

The schooner-rigged steam yacht Wild Duck is an iron vessel built by the late John Forbes, and now owned by General Francis W. Green of New York. The yacht has been chartered to United States Senator Aldrich of Rhode Island, who with his wife and daughter were on board making a trip from New York to Narragansett bay.

### Another Collision.

New York, July 17.—The Staten Island Rapid Transit ferryboat Westfield, on her way to this city from St. George, Staten Island, with 100 passengers, was in collision off Governor's Island, with the steamboat Howard Carroll of the Starin Transportation company's fleet, which had a number of passengers aboard bound to Glenn Island. The Carroll struck the ferryboat amidship almost disabling one of her paddlewheels. The Carroll had her bows damaged and was compelled to return to her pier on North river. The Westfield made her slip at the Battery in safety and landed her passengers.

### Clouds Interfered.

San Francisco, July 17.—Prof E. C. Barnard, formerly of the Lick observatory and now connected with the Yerkes observatory at Williams Bay, Wis., has returned from Sumatra, where he went to observe the total eclipse of the sun on May 13. Prof. Barnard reports that all the astronomical expeditions sent out by the various bodies and institutions were failures in a great measure. They have added little to the stock of astronomical knowledge. This result is due to the cloudy weather that prevailed at all the stations but one, which happened to be imperfectly equipped because it was expected the clouds would be thickest there.

### Showers in the West.

Chicago, July 17.—Private advices report showers over widespread area in Nebraska, Missouri, Kansas and Iowa. These reports come from railroads and elevator line systems which cover great areas. Missouri reports are generally of good showers. The official map and the official forecast show little relief and not a very favorable promise, but official stations are very widely scattered. For instance, there are only three in the whole of Kansas.

### Rebels Routed.

Oaxaca, Mexico, July 17.—The troops under command of Lieutenant Colonel Knox of the Twenty-eighth battalion, met a large force of Maya rebels 10 miles from Santa Cruz, and in the fight that took place six Indians were killed and a large number of warriors were taken prisoners. Chief Felipe Yama is among the captives. The government troops also captured a large store of ammunition.

### Explosion at a Powder Works.

Stockholm, July 17.—An explosion at the Gyttop powder works at Nora, province of Orebro, wrecked several buildings. Four persons were killed and a number injured.

## LYNCHING OF ITALIANS

Italy Takes Cognizance of the Recent Affray in Mississippi.

MAKES REPRESENTATIONS TO HAY.

Investigation of the Assassinations Being Pursued Through the Italian Consul at New Orleans. The Dead Commenced.

Washington, July 17.—The Italian government has taken cognizance of a recent affray at Erwin, Miss., in which it is claimed two Italians were lynched and a third seriously wounded. The facts have been communicated to the foreign office at Rome, and the Italian embassy here has made representations to the state department. At the same time the Italian authorities are pursuing an investigation of their own through the counsel at New Orleans and their consular agent at Vicksburg, Miss., which is not far from the scene of the alleged trouble.

### Lynching Denounced.

Memphis, July 17.—At a meeting of citizens of Greenville, Washington county, Miss., a resolution was adopted, asking the governor to order a special session of the circuit court of the county to deal with the recent assassination of two Italians at Erwin. The crime was denounced in the strongest terms.

### Epworth League.

San Francisco, July 17.—The influx of Epworth Leaguers continues. About 4,000 delegates will come from the east over the Southern Pacific lines. In addition several delegations will arrive from southern points. How many are coming by the Santa Fe is a matter of conjecture, as no definite figures have been received. Rev. A. C. Crews of Toronto, Canada, general secretary of the Epworth League of Canada, arrived on a special train with 170 Canadians. The missionary department of the convention will have some live exhibits. Rev. A. E. Wing of Ukiah, has arrived with 12 native Indian children and their teacher, Miss Alice Swazy, who will be guests of the League. The day was devoted to the completion of the details of the convention, which will be formally opened Thursday morning.

### Commander Must Explain.

Seattle, Wash., July 17.—Lieutenant Commander Minnett, when seen aboard the Concord, declined to be interviewed regarding the dispatch from Washington regarding the return of the Concord from Alaska without orders from Washington. He read the dispatch with the greatest interest and expressed his surprise at its contents. "I hardly know what to say about this dispatch," he remarked. "I have just received a telegram from the navy department asking me to explain fully by letter the reasons for bringing the Concord to this port, but I have not yet prepared my answer. It will be impossible for me to say anything pending instructions from the navy department more than I have an explanation to make officially, which I am confident will be entirely satisfactory to the department."

### Russia and Uncle Sam.

St. Petersburg, July 17.—The opinion is very general in official circles in St. Petersburg that the acute stage of the tariff dispute with the United States is now safely weathered and that commercial relations between the two countries will shortly resume their normal character. Although M. Witte, minister of finance, was throughout convinced of the absolute justification of his resistive attitude, he was sufficiently wise and tactful to discern the expediency of not pushing his contention beyond a certain limit. He has now come to a frank and cordial understanding by such courteous and considerate means as not to leave the slightest after-soreness in Washington. This is particularly obvious in the tone of the Russian reply to Secretary Hay's note.

### Removed Their Wigs.

London, July 17.—It is unofficially reported that Queen Alexandra was prostrated by the heat and consequently arrangements for her visit to London were upset. The extreme weather affects even the dignity of the judges of the high court who have been obliged to remove their ponderous wigs. Their example was followed by barristers and for the first time the absence of wigs during court proceedings has shocked the more conservative visitors, while it has added greatly to the comfort of bench and bar.

### General Rain Delayed.

Kansas City, July 17.—General rains over the southwest is still delayed and the indications are for at least another day of torrid weather. A light thunderstorm prevailed at Concordia, Kansas, 100 miles west of Kansas City. A few sprinkles fell in south

west Missouri and northern Arkansas. At Dawson, I. T., in the Cherokee nation, 75 miles south of the Kansas line, one half inch of rain fell, breaking a drought of 3 days. It is doubtful whether the rain came in time to do much good.

### STATIONARY FIREMEN'S STRIKE.

Complete Cessation of Mining Operations in Lackawanna Valley.

Scranton, Pa., July 17.—There was an almost complete cessation of mining operations in the Lackawanna valley, because of the strike of stationary firemen. Less than a half dozen mines managed by individual owners and the group of Delaware, Lackawanna and Western railroad mines in the west Scranton district, were the only ones in satisfactory shape for running. The small owners had granted the eight hour demand and the men at the Lackawanna mines refused to quit, being affiliated with the United Mine Workers of America, and not with the Stationary Firemen's association.

Only six Delaware and Hudson collieries are in operation throughout the Lackawanna and Wyoming valley. Those idle involve 8,000 workmen, the greater portion of whom are in Scranton and not as far as Carbondale and Forest City. The Erie railroad company's mines employ 12,000 men and are shut down tight. A serious condition confronts this company at its Genwood colliery at Jermy, where it had been fighting hard against a flood which has submerged all the lower workings and reached nearly 50 feet up the shaft. The Ontario and Western Railway company, employing 7,000 men in the Lackawanna region, is idle, and the flooding of most of the mines is threatened, involving a destruction of property that will be enormous. In the event of flooding a mine cannot be again restored to working condition for several months.

### American Federation to Assist.

Pittsburg, July 17.—National Organizer Thomas H. Flynn of the American Federation of Labor, came to Pittsburg from Washington, and after a consultation with the officials of the Amalgamated association, offered the support of the Federation in the strike. In an interview Mr. Flynn said the Federation had a membership of 2,000,000, and they could make an assessment when any of the organizations affiliated with them were in need of assistance. He said he had just settled a strike of 4,000 tube workers and iron workers at Reading, and these men announced they would contribute with a week each. All members could not afford this, but an assessment of five cents each would yield \$100,000 and would not be missed by the members.

### Granted An Increase.

Rochester, N. Y., July 17.—After nearly nine weeks' idleness the striking laborers engaged in municipal contract work, resumed work. Nine bosses signed the agreement, only two of the contractors remaining firm in their declarations not to grant the men their demands. The men are granted 20 cents an hour for an eight hour day work and time and a half for overtime and double time on holidays.

### To Aid the Amalgamated.

Elwood, Ind., July 17.—The Tin Plate Workers' Protective association will stand by the Amalgamated association and will refuse to work plates in any steel trust mill made or sheared by nonunion men. This important announcement of aid to the Amalgamated association was made by President George Powell of the Tin Plate Workers' Protective association.

### Discussed the Boer War.

London, July 17.—In the course of a debate on the finance bill in the house of commons, Sir William Vernon Harcourt (Liberal) criticized the government's financial policy and said those persons believing that the statement that the general expenditures would fall after the termination of the war, were living in a fool's paradise. Sir William's speech, which was throughout unusually pessimistic, drew angry interruptions from Joseph Chamberlain, the colonial secretary. The latter in the course of his reply to Sir William, took a sanguine view of the situation in South Africa. He said nobody doubted the war would soon be over, and when the Boers recognized they had been thoroughly beaten and had returned to peaceful occupations, interest on the Transvaal debt and sinking fund would be easily payable out of the surplus revenue derived from the new colonies.

### From Europe to Chicago.

Chicago, July 17.—The steamship Northwestern, first of a regular line to make a trip from Chicago to Europe, entered the harbor here amid deafening salute of whistles from other craft. The round trip took 84 days, but it is expected this time will be greatly lowered the next voyage. The boat was in good condition, despite the ice encountered on her outward trip in April.

## FOR HARMONY'S SAKE.

Japan Withdraws Her Request For an Increase of Her Indemnity.

OBJECT LESSON FOR THE EUROPEANS

United States Assents to the Proposition to Increase Chinese Customs—Disposition of Manchuria.

Washington, July 17.—The Japanese government has met the difficulty growing out of the preference of her request for an increase of her indemnity, by withdrawing that request. The result is a substantial loss to Japan. She asked originally for \$23,500,000. This figure was more moderate than any of the powers which played any prominent part in the Chinese campaign, and represented the barest expense of the undertaking. It was fixed upon the idea that payment was to be made in cash by China. Confronted with the bond payment the Japanese government asked that her allotment be increased to \$27,000,000 in bonds to make good the loss she would suffer through the sale of the bonds.

As soon as some of the other nations found that the allotment as originally fixed was in danger of being disturbed, they came in with increased demands and thus it is that Japan, finding that insistence upon her demand would blockade the negotiations at this phase, has withdrawn her request for the present at least. It is safe to assume that the United States will do what it can to secure compensation for Japan in some other way in the future.

Mr. Rockhill, our commissioner at Peking, has been instructed to give the assent of the United States to the discussion of the proposition to increase the Chinese customs duties in order to provide means for the payment of the international indemnity. Our government is still opposed to this project, and the instruction is sent only in deference to the universal wish for a speedy conclusion of the negotiations at Peking. It is learned that the hitch in these negotiations, the most baffling that has yet occurred, is due entirely to the issue raised as to the increase of customs.

It is understood to be the desire of some of the great powers that the disposition of Manchuria should go before the ministers at Peking and be finally determined by a joint agreement among the powers, although no definite step has been taken in that direction in favor of being discussed by foreign representatives stationed here, who fully expect the plan will be adopted.

Russia, it is expected, will be reluctant to agree to it. Attention has been directed to the latter by reports that Russia had resumed direct negotiations with China concerning Manchuria, and also by a cablegram stating that a Russian proclamation was about to be issued establishing New Chwang as a Russian port.

As to the report that Russia will proclaim New Chwang to be a Russian port, it is pointed out in diplomatic quarters that New Chwang is a treaty port and as such open to the commerce of the world under the existing tariff regulations with China, and foreign merchants have the right to trade and to conduct establishments there. The rights of trade could not be divested in the opinion of diplomatic officials by a Russian proclamation unless the powers had previously given assent. Thus far, however, there has been no request from Russia or China for any change in the status of New Chwang as one of the treaty ports.

### Commercial Congress.

Cripple Creek, Colo., July 17.—Festivities with the Trans-Mississippi commercial congress began with a flower parade. The addresses on the program at the morning session of the congress was as follows: "Relation of the Government to the Mining Industry," by Robert Graham, Cripple Creek; "Laws Affecting the Mining Industry in the Rocky Mountain Region and the Results of the Upbuilding in this Section," by Edward F. Browne, Aspen, Colo.; "Department of Commerce and Industries," by J. W. Noble, former secretary of the interior, St. Louis.

### Feared Arrest.

Mena, Ark., July 17.—Frank Nelson shot and killed himself at his home in the presence of his wife. Mrs. Nelson says her husband was constantly in dread of being arrested for killing two men, a white man and a negro, in the Indian territory.

### Walked Out.

Steubenville, O., July 17.—The steel hoop employees at Mingo Junction, who organized Tuesday night, went out and the plant is idle.

THE war between labor and the giant trusts is becoming more intense. The combines want absolute mastery of the laboring classes, as they already control most everything else.

BRYAN'S Commoner calls attention to the fallacy and fraud of the McKinley administration promising the Philippine liberty, by quoting from Macaulay where he says no race is fit for freedom so long as it remains in slavery. It is only by attaining liberty that it becomes deserved.

SENATOR DEBDE has issued an address to the citizens of Kentucky, in which he hurls defiance at his enemies and defends himself from his critics. He claims credit for initiating the National policy on the Philippine question. The Senator should now tell how much of that \$270,000 campaign fund Dick Knott, of the Louisville Post, got last fall.

THE wheat market has been somewhat of a disappointment to the farmers this year. The first crop sold here was at 65c. per bushel, but since then the price has declined and 50 and 55c. is all that has been offered during the past week. Several have sold at these prices but the most of the farmers are inclined to hold for a better price. The low price seems to be the result of the large amount of old wheat on hand from last year and the large crop in the West and Northwest.—Flemingsburg Gazette.

Changed your plan of reasoning, haven't you, Br'er Wilt? When wheat dropped so low during Cleveland's term a few years ago, you Republican editors charged it all up to the Democratic administration. Of course the McKinley administration, though, has had nothing to do with the present low price of grain.

HERE'S a new development of trust tyranny:

INDIANAPOLIS, IND., July 16.—The News says that three efforts on the part of promoters of the new Indiana electric traction line to get rails from the trust has been turned down. The new lines would compete with existing railways. The News says it understands it to be the belief that the refusal to sell rails to electric lines is due to an understanding between officials of the United States Steel Company and the present railway lines.

Of course the trust doesn't have to sell you goods unless it chooses to do so. This new move is calculated to eliminate the competition problem in the railway business hereafter. Many of the steel magnates are interested financially in railways, and of course they have a right, don't you know, to protect their own property. Oh these trusts are grand affairs, aren't they?

DEATH is rapidly thinning the ranks of the old veterans. Reports have been received by Commissioner Evans, of the Pension Bureau, from all the Pension Agents of the country, showing the entire pension business transacted for the fiscal year ending June 30 last. The showing thus made, compared with 1900, is as follows:

The appropriations for the two years were the same, \$144,000,000 for each year. The expenditure for 1901 was \$138,531,491, an excess over 1900 of \$59,354.

During the year the pension roll was increased to the extent of 4,305 names, making a total of 997,834. The deaths among pensioners numbered 38,482 in 1901, or 2,275 more than in 1900.

The record shows that for the year 45,710 claims were filed on account of the Spanish-American war. Of these 7,086 were allowed and 7,059 were adjudicated and rejected.

### Board of Trade Meeting.

A meeting of the Board of Trade will be held Friday evening at 7:30 in the Council Chamber. Business of special importance to consider and a full attendance is urged.

### It Dazzles The World.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by J. Jas. Wood & Son who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

### FIVE SUITS

Against a Kentucky Investment Company at Lexington—Important Question at Issue.

[Cincinnati Enquirer.]

LEXINGTON, Ky., July 16.—Five suits were filed to-day against the Century Investment Company by H. F. Paynter, H. A. Paynter, J. T. Jones, John King and Harry Tanner. The suits are to recover money paid on coupons and to "set aside investment contracts as being fraudulent and embracing a lottery scheme" and to "set aside the forfeiture clause as inequitable and without consideration."

The petitioners state that the company is insolvent and that it depends upon the fees of the holders of contracts for money to pay redemptions, and that whenever new business ceases to come in the company must fail. These suits have created much uneasiness in investment circles and if they are decided in favor of the petitioners others by the score are apt to follow. There are about twenty companies operating here.

### CHRONIC KICKERS.

Some in Every Household in Maysville, But They Are Growing Less.

Chronic kickers the kidneys are—when they're sick.

Among the bills presented and allowed by the Brown County Commissioners was one from Clermont County for \$3,515.60, costs in the John Donald murder case tried in that county a few months ago. This does not include the costs for Brown County which makes the bill over \$7,000.

At Denison, Tex., Monday, a number of ministers prayed for rain to break the drought, which had prevailed for months. That evening a storm struck the city and rain fell for two hours. The wind did considerable damage, wrecking the new Methodist Church just completed at a cost of \$15,000.

Wednesday was the fiftieth anniversary of the beginning of work on the Maysville branch of the Maysville and Lexington railroad. Old citizens recall the big barbecue given in honor of the event. Col. Waller threw the first shovel of dirt. The day was not devoid of accidents, as Jim Reed lost an arm by the premature discharge of a cannon.

The new election law requires that the County Committee of the two leading parties in each county shall file a list of five names with the State Election Commission from which one County Election Commissioner shall be selected by the State Commission for each party. These lists should be sent in the first week in August in order to facilitate the work of the State Commission.

Miss Elsie Hirsch, one of the most beautiful young ladies residing in Cincinnati's aristocratic Avondale, was burned to death one morning this week. She went into the bath room at her home dressed in a very light garment and attempted to light the heater which furnished hot water for it. In some way her gown caught fire from the gas and in a moment she was enveloped in the flames. She was eighteen and a sister of Max Hirsch, the distiller.

The Cincinnati and Eastern Electric Railway Company has given a trust deed to the Cincinnati Trust Company to secure a bond issue of \$500,000. There are to be 300 bonds for \$1,000 each and 400 for \$500 each, all dated July 15th, 1901, and are payable April 1st, 1926, and bearing interest at the rate of 5 per cent., which is payable quarterly. The money is to be expended in the construction of an electric railroad from the corporation line of Cincinnati to the corporation line of the village of New Richmond.

Fleming Gazette: "It is reported that R. T. Marshall and other of the Marshall heirs will put down one or two oil wells on their land in the Mt. Carmel neighborhood. They are the owners of a thousand or so acres in the northeastern portion of the county and on these lands have been found all the indications which point to a good oil field. It is said that in all the deeds of conveyances of land from the old Marshall estate a provision has been inserted by which any oil or minerals which may be found reverts back to the original owners."

### Trouble of a Minister.

To benefit others Rev. J. T. W. Vernon, of Hartwell, Ga., writes: "For a long time I had a running sore on my leg. I tried many remedies without benefit, until I used a bottle of Electric Bitters and a box of Bucklen's Arnica Salve, which cured me sound and well." Sores, eruptions, boils, eczema, tetter, salt rheum show impure blood. Thousands have found in Electric Bitters a grand blood purifier that absolutely cures these troubles. Satisfaction is guaranteed or money refunded by J. Jas. Wood & Son. Large bottles only 50c.

# Lappet Swiss!

Machine embroidered Swiss is a better name. The prettiest summer goods for the price. Five colors—leaf green, canary, cherry, black, bluet, embroidered in a self colored vine. Twenty-five cents the usual price, ours the luck to buy them to sell for 19c. They're beauties.

## WHITE PIQUES!

Pretty and good for many purposes. Plaid, stripe and detached effects. No cheap piques in this company. How we dislike the word cheap. Everywhere you see and hear it. Some merchants call shoddy goods cheap because the price is low—naturally. We call them dear at any price because they're worthless. We carry none but reliable qualities but always remember on those same qualities we can't be undersold. Our Piques have been reduced in this way but they're high grade fabrics.

The 50c. Quality 35c. The 39c. Quality 25c.  
The 25c. Quality 15c.

### MRS. ANNA MULCAHY.

The Final Summons Came to This Good Woman Last Evening, After a Lingering Illness.

Mrs. Anna Mulcahy, whose critical illness was frequently mentioned in this paper the last week or two, died last evening at 7:15 o'clock at the home of her sister, Mrs. Shannon, on Limestone street, south of Fourth.

She had been suffering from a disease of the stomach for three months, and her friends and physician realized some days ago that the end was near at hand. Patiently her long suffering was borne, and she passed peacefully to her final rest.

Mrs. Mulcahy was born in Carlow, Ireland, but had been a resident of Maysville most of her life. She was sixty-eight years old, and is survived by one son, Thomas, of Maunier, Tenn. Her husband died years ago. Her maiden name was Cahill.

The date and hour of the funeral will not be fixed until her son arrives this afternoon, but it will probably be tomorrow morning. The service will be held at St. Patrick's Church, of which she was long a devout member. Burial at Washington.

#### A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by J. Jas. Wood & Son, druggists.

Berries and spring vegetables, Calhoun's.

Thirty-eight years ago yesterday the battle of Cynthiana was fought.

Strictly pure Paris green that is guaranteed, for sale at Chenoweth's drug store.

The subscriptions in aid of the coming Elks fair amounted to \$884 at last accounts.

Henry Caywood, of Fairview, Fleming County, died a few days ago, aged forty-one years.

Fleming County has 5,823 school children, and will receive \$14,555 of the school fund of the State.

On account of the drouth, fruit and vegetables are so scarce and command such a high price in Chicago that only the wealthy are able to secure them.

Positively the best cut yellow poplar shingles on earth. Samples at R. A. Carr's and Limestone Mill, Maysville. Address, D. G. Wilson, Orangeburg, Ky.

John Henry Cooper, of Greenup, and Miss Lizzie K. Colley, of Portsmouth, were married Wednesday by Judge Newell. It was the groom's second marriage.

Died, at Flemingsburg, July 13th, Miss Florence Cooper, daughter of Mr. and Mrs. W. D. Cooper, aged twenty-eight. Mrs. Charles Cooper and son Marshall, of this city, attended the funeral.

G. W. Rogers & Co., No. 127 Market street, Maysville, is the place to get pure, straight two-star "guaranteed" whiskies, brandies and gins, California wines &c. No spirits or rectified goods sold. Best \$2 whisky on earth.

### BASE BALL.

The Old Eckfords and the Y. M. C. A. Will Meet at Sixth Ward Park Friday, July 26th.

Eckfords versus Y. M. C. A. Friday, July 26th. Game called at 3:30 p. m. Admission 25 cts. Ladies free. Let everybody turn out.

This will be a fine game. Let all the stores close and business men take three hours off Friday for recreation. Let the clerks see the game, and all the business men, too, and citizens in general. Proceeds for local Y. M. C. A. The old town is getting warm on the subject of base ball.

Let's make it unanimous.

Col. Sam Frazee, of Minerva, will officiate as Marshal at the Ripley fair.

George T. Gill and Miss Atta Umstadt, a Fleming couple, were married Wednesday by Judge Newell.

—Mrs. John T. Dye and daughter, of Indianapolis, arrived last evening to attend the funeral of Miss Glenn Pickett.

R. M. Hopkins, State Sunday School Evangelist, will conduct an institute at Germantown Christian Church July 25th-28th.

The Stanley up to-night for Pomeroy and Indiana down.

The Keystone State passed down at 4 o'clock Wednesday afternoon and has laid upon account of low water.

A medium-sized model barge was launched Wednesday morning at Captain Oscar Barrett's boatyards at Levanua.

It is announced that the Bay Bros. will have a new and much larger and better boat in the Urania's trade in a short time. They refuse to give out her name yet, as the deal has not been closed.

The Bay Bros. have closed the sale of the steamer Urania to Captain Blair, of Dubuque, Iowa. She left for Davenport at noon Wednesday and will run from there to Burlington. Captain Blair paid \$17,000 for the boat, and has put the scrubbers to work and will have her in fine shape by the time she reaches home.

## How to Stew Onions.

Select the medium sized silver onions, peel off the outer skin, let them lie in cold water half an hour and drain, cover with boiling water, add a teaspoonful of salt and boil, uncovered, for ten minutes. Drain off this water, cover with fresh boiling water, add salt and boil ten minutes longer, then change the water again and boil until the onions are tender. They should be as white as snow. Do not boil too hard or cover the saucepan or the onions will be strong and dark colored. Make a cream sauce and pour over the onions after carefully draining them.

## Mysterious Triple Tragedy.

Glennwood, Ia., July 17.—Three charred bodies were found in the ruins of the residence of Fred Fourhelm, which was destroyed by fire, and near them were a razor and a shotgun. Fourhelm was a young farmer, and with his wife and 6-year-old child resided 12 miles south of this place. Neighbors saw the house in flames and hastened to the scene in time to have rendered assistance had any one been alive within the structure. It is believed Fourhelm had cut the throats of his wife and child with the razor, fired the house, then shot himself with the gun. Fourhelm's body showed a gunshot wound. The necks of his wife and child, though burned to a crisp, appeared to confirm the theory that their throats had been cut.

New York, July 17.—J. Pierpont Morgan announced that J. J. Hill, E. H. Harriman, E. McK. Twombly, William Rockefeller and Samuel Ken would be elected to the directorate of the Northern Pacific Railway company to fill vacancies to be created.
